

HUNT PRO

**Titanium
Suppressor**

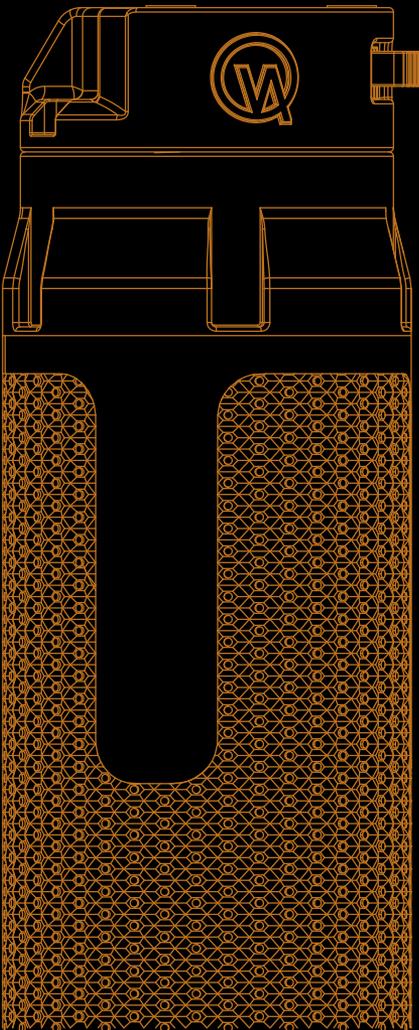

Designed for performance-optimized hunting systems

Hunt Pro Series suppressors are engineered for semi-automatic and bolt-action rifles, delivering reliable performance during rapid fire. An **optimized gas management system** reduces recoil while maintaining consistent weapon function under high thermal stress.

Made from **Grade 5 titanium** using **advanced sintering technology**.

Available with **Direct Mount** or **Q-Works Quick Detach** systems for broad platform compatibility.

ROBUST. RECOIL-REDUCED. PRECISE.

LENGTH 130 mm

WEIGHT 300 gr + Mount

DIAMETER 46 mm

CALIBER .223 / .30 / .338 / .38

MOUNTING OPTIONS Direct Mount /
Q-Works Quick Detach

FINISH Raw Titanium,
Cerakote Black /
FDE / OD Green

LOAD CLASS Class II
Engineered for sustained firing
cycles and dynamic performance.
Validated under extended
endurance testing.
