

X
PRO

**Endurance
Suppressor**

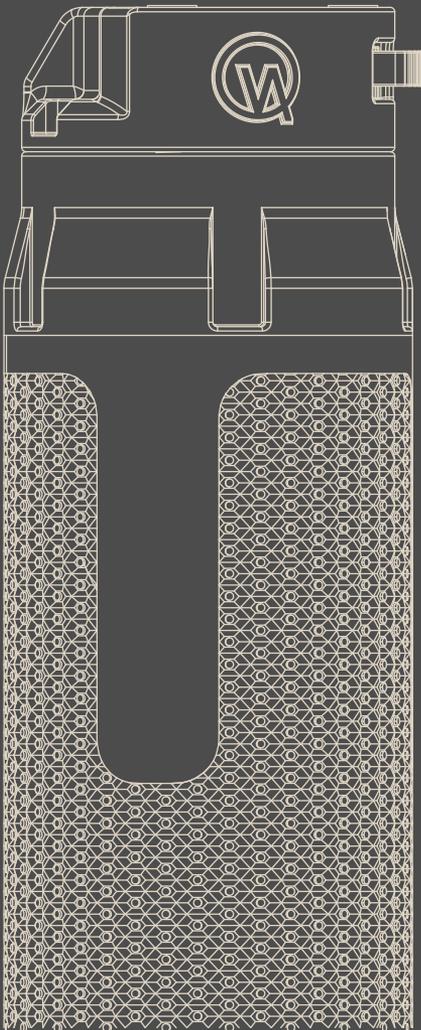

Designed to unleash the maximum
performance of dynamic weapon systems

X Pro Series suppressors are optimized to deliver a **very low recoil due to highly efficient gas flow management** and therefore are the first choice for semi-automatic platforms which demand **stability and recoil control**.

Manufactured from **Grade 5 titanium or Haynes® 282** using **advanced sintering technology** for exceptional durability under extreme thermal and mechanical stress.

Designed for Q-Works Quick Detach with **repeatable alignment and secure lock-up**. Compatible with Q-Works Direct Mount.

OPTIMIZED GAS FLOW. MAXIMUM STABILITY.

Essential firearm component under German law. Acquisition and possession require authorization.

LENGTH 130 mm

WEIGHT 280 gr (Ti Grade 5)
550 gr (Haynes® 282)
+ Mount

DIAMETER 46 mm

CALIBER .223 / .30 / .338 / .38

MOUNTING OPTIONS Direct Mount /
Q-Works Quick Detach

FINISH Raw Titanium,
Cerakote Black /
FDE / OD Green

LOAD CLASS Class II (Ti)
Class III (Haynes® 282)
Extreme thermomechanical
resilience. Validated in SOCOM-
inspired testing.
